6.2. DreamCard Statutes

6.2.1. **Bronze DreamCard** : This status is granted for a period of 30 days to the Member who has acquired the equivalent of 6 Pass over the previous 30 days.

6.2.2. **Silver DreamCard**: This status is granted for an unlimited duration to the Member who has acquired the equivalent of 300 Pass since his registration on ZooValley. It allows the Member to benefit from the following advantages: removal of advertising displays, doubling of Points winnings (excluding prizes) on Contests and Mega Contests draws, access to the "Winnings Exchange" section, which allows him to exchange his prizes won for Points, possibility of converting his unlimited rounds into free or paid rounds.

6.2.3. **Gold DreamCard**: This status is granted for an unlimited duration to the Member who has acquired the equivalent of 1200 Pass since his registration on ZooValley. It allows the Member to benefit from the advantages of the Silver DreamCard status, as well as the following advantage: access to the "Pass Transfer" section, which allows him to transfer his Pass acquired on the ZooValley and Wonderz sites, and his Pass acquired on the ZooValley site, to his Member account on one of these 3 sites.

6.2.4. **Diamond DreamCard** : This status is granted for an unlimited duration to the Member who has acquired the equivalent of 12 000 Pass since his registration on ZooValley. It allows the Member to benefit from the advantages of the Silver and Gold DreamCard status, as well as the following advantages: priority access to Customer Service and preferential exchange rate in the "Earnings Exchange" section.

6.3. Prizes offered

In addition to the DreamCard Statutes, the Member automatically wins a prize when his meter reaches the following levels, expressed in Pass: 60, 300, 600, 1200, 2400, 4800, 12000, 24000, 48000, 96000, 144000, 300000.

When the Member reaches one of these levels, he is offered to choose a prize among a selection.

6.4. Related accounts

Members who also have an account on the Wonderz, ZooValley and MadLotto sites have the possibility to "link their accounts" in order to group them on a single DreamCard. This allows them to increase their counter faster: Pass (or Crédits on MadWin and Wonderz) acquired on each of these sites are then counted on the same DreamCard. Similarly, the DreamCard Statutes acquired are applied to all Member accounts attached to the same DreamCard.

6.5. Resetting the DreamCard

When the Member reaches the maximum level of the DreamCard, i.e. 300,000 Pass, the DreamCard is reset. Its counter is reset to zero, thus allowing the Member to win again the prizes awarded at each level. Concerning the DreamCard Statutes, the DreamCard Diamond Status having previously been acquired definitively, the Member retains this status when his DreamCard is reset.

7. The Dreambox :

7.1. Principle

- 7.1.1. The Dreambox corresponds to a subscription of one, two or three months in order to benefit from certain advantages on the ZooValley site.
- 7.1.2. Each Dreambox is identified by a unique identification number. A Dreambox has an activation date and an expiration date.
- 7.1.3. The advantages of a Dreambox are acquired on an account and a site. If the Member has an account on several DreamCentury sites (ZooValley, MadWin, Wonderz, MadLotto and Mafia Inc.), he must subscribe to a Dreambox subscription for each of his accounts if he wishes to benefit from the advantages of the Dreambox on all of his accounts.
- 7.1.4. The benefits of a Dreambox are not transferable to another account and are not modifiable or adaptable.
- 7.1.5. A Dreambox subscription cannot be refunded or interrupted during the subscription period.
- 7.1.6. The Dreambox subscription principle works as follows:
 - 7.1.6.A The subscription period is chosen at the time of subscription by the Member.
 - 7.1.6.B This period may be one month, two months or three months.
 - 7.1.6.C The subscription is not automatically renewed on the expiry date. The subscription must be renewed by the Member before the expiry date. For example, if the Member wishes to continue to benefit from the advantages of his Dreambox Green, he must therefore, before the expiry date of his Dreambox, make the renewal process himself on the ZooValley site.
 - 7.1.6.D The Member may hold only one valid maximum current subscription for each type of Dreambox. The Member can therefore benefit, to the maximum, from the combined advantages of the Dreambox Green, the Dreambox Blue and the Dreambox Red.
 - 7.1.6.E Upon renewal by the Member, and regardless of the date on which such renewal was effected, the expiry date will be extended for the duration of the renewal.
- 7.1.7. There are three types of Dreambox:
 - The Dreambox Green,
 - The Dreambox Blue,
 - The Dreambox Red.
- 7.1.8. Each type of Dreambox corresponds to specific advantages on the ZooValley site.
- 7.1.9. The advantages of Dreamboxes are presented on the "Principle" and "Learn More" sections of each type of Dreambox.
- 7.1.10. The cost of subscribing to a Dreambox is clearly indicated on the page of the "Learn More" section of the Dreambox in question.
- 7.1.11. The payment of the subscription is made exclusively by credit card.

7.2. The Advantages

- 7.2.1. Dreambox can offer one or more of the following benefits.
- 7.2.2. **Free Round Advantage :**
 - 7.2.2.A The Member benefits from additional Free Rounds.
 - 7.2.2.B The number of additional Free Rounds may vary depending on the type of Dreambox and is shown on the "Learn More" section of the Dreambox in question.
 - 7.2.2.C Additional Free Rounds are credited to the Member's account a maximum of three (3) minutes after the first connection of the calendar day to his account.
 - 7.2.2.D Additional Free Rounds have in all respects the same features as Free Rounds offered at midnight to any connected Member. As such, and without this example being exhaustive, the Additional Free Rounds also expire at midnight.

7.2.2.E Additional Free Rounds obtained thanks to this advantage are not counted in the Classification of the Contests of the Day and the Mega-Contest of the week.

7.2.3. Additional Points Advantage

- 7.2.3.A The Member receives a Points Bonus for each Free Round played that has earned Points.
- 7.2.3.B The value of this Points Bonus may vary depending on the type of Dreambox and is shown on the "Learn More" section of the Dreambox in question.
- 7.2.3.C The Member benefits from this advantage for his Free Rounds offered at midnight and his additional Free Rounds obtained via the Dreambox subscription.
- 7.2.3.D Additional Points obtained thanks to this advantage are not counted in the Daily and Mega-Contest Rankings for the week.

7.2.4. Sponsorship Advantage :

- 7.2.4.A The Member receives a percentage bonus on the Points earned by his sponsored friends on ZooValley.
- 7.2.4.B The benefit is expressed as an additional percentage (%) by the Member holding a Dreambox on the Points acquired by his sponsored friend on the ZooValley site.
- 7.2.4.C The value of this Percentage Bonus may vary depending on the type of Dreambox and is shown on the "Learn More" section of the Dreambox in question.
- 7.2.4.D For example :
 - Member A has a Dreambox and benefits from a 5% Sponsor a Freind advantage.
 - Member A sponsors Member B, who thus becomes his sponsored friend.
 - Member B earns 1000 Points on the ZooValley site.
 - Member A will then be credited with :
 - 10% of the 1000 Points earned by Member B ($10\% \times 1000 = 100$ Points), under the Default Sponsor a Freind Win on ZooValley.
 - 5% of the 1000 Points earned by Member B ($5\% \times 1000 = 50$ Points), under the Dreambox Sponsorship advantage.
 - Member A will earn in this example 15% ($10\% + 5\%$) of the Points earned by his sponsored friend on ZooValley.

7.2.5. Advertising Advantage :

- 7.2.5.A The Member benefiting from this advantage will not see on ZooValley any advertising content external to the DreamCentury network of sites (ZooValley, MadWin, Wonderz, MadLotto and Mafia inc.).
- 7.2.5.B The Advertising advantage may vary depending on the type of Dreambox and is clearly presented on the "Learn More" section of the Dreambox in question.

7.2.6. Surprise Prize Advantage:

- 7.2.6.A The Member benefiting from this advantage will receive a Surprise Prize following the exceeding of a number of consecutive months subscribers.
- 7.2.6.B The benefit is expressed in number of consecutive subscriber months and by the commercial value of the Surprise Prize won.
- 7.2.6.C The commercial value of the Surprise Prize won is expressed in value including all taxes. This commercial value incl. all taxes is a commercial value noted on one of the following e-commerce sites : amazon.com, amazon.co.uk, amazon.com.au, priceminister.com, rakuten.com.
- 7.2.6.D The values of the Surprise Prize advantage may vary depending on the type of Dreambox and are clearly presented on the "Learn More" section of the Dreambox in question.

The Player can either keep his Currency Value Prize or exchange it for one or more clicks in the Prize Grid "The Coral Reef", depending on the value of the check.

This choice must be made within 30 minutes maximum from the time the win is obtained. Beyond that, the exchange against a Currency Value Prize will be automatically made.

If the Player has decided to exchange his Currency Value Prize for clicks in "The Coral Reef", then he remains stuck on the Grid until he has made his clicks.

- Segments Points :

All Points segments correspond to different Points segments.

The Organising Company reserves the right to modify the amount of Points on the segments.

- Bonus Segments:

- **Shell Bonus:** The player sees all points earned on the wheel doubled for him only. This Bonus is active until the end of the game on which the Player obtained this Bonus.
- **RePlay Bonus:** The Player wins 2 additional Rounds depending on his game mode.
- **Long-View Bonus:** The player discovers the number of turns remaining before falling on the Loot segment.
- **North and South Compass Bonus:** The player must discover 2 Compasses, one indicating North and the other South on the same Wheel to win an additional 200 Points.
- **Double Flag Bonus:** The player receives twice the amount of the next Discovered Points segment on the Wheel where he won the Double Flag Bonus.

Example :

The player wins a Double Flag Bonus on Wheel #1. He then turns the Wheel and falls on a 100 Points segment. The player will win in this scenario : 200 Points (100 x 2) instead of the 100 Points he would have won without the discovery of the Double Flag Bonus.

- **Triple Flag Bonus:** The player receives three times the amount of the next Discovered Points segment on the Wheel where he won the Triple Flag Bonus.

Example :

The Player wins a Triple Flag Bonus on Wheel #1. He then turns the Wheel and falls on a 100 Points segment. The player will win in this scenario : 300 Points (100 x 3) instead of the 100 Points he would have won without the discovery of the Triple Flag Bonus.

Individual Cases :

If the Player wins a Double Flag Bonus then a Triple Flag Bonus (or vice versa) and a Points segment, the Double Flag Bonus and Triple Flag Bonus will apply.

For example, if the player discovers a Double Flag Bonus, then a Triple Flag Bonus and 100 Points then he will earn: 100 Points + 100 Points (Double Flag Bonus) and 200 Points (Triple Flag Bonus).

Allocation of Winnings :

The Winnings are calculated by the servers of the Organising Company every 2 minutes. Their allocation to the Player's account will therefore be slightly staggered.

- **5 Raiders Coin Bonus:** The Player may award 50 Points to a player who has played the Steering Wheel before him. N.B : In Multi-Turn Mode, Points are randomly awarded to a player who has played on the same wheel.
- **Calypso Bonus:** The Player automatically offers 40 Points to all players who previously clicked on the current wheel.
- **Pistol Bonus:** This Bonus will allow you to make a "Double or Quits" on the win of your choice in the Coral Reef (including access to the Bonus Games, except the Red Beaver Sam Treasure). You can make up to 3 "Double or Quits" on the same prize, and thus multiply your initial win, or your access to a Bonus Game, up to 8! When you win a "Double or Quits" on a prize, you receive your winnings in the form of their equivalent value in Points. When you win it on an access to a Bonus Game, you win the corresponding number of accesses to the game.

- Wheel Renewal

When a Player falls on the "Loot" segment, the game ends and a new Wheel Game begins.

14.4.2.B The Coral Reef :

14.4.2.B.1. Access to the Game:

The Player accesses this game by having fallen on the "Loot" segment of the Level 1 Wheel and having chosen to exchange his Currency Value Prize Winnings for clicks in the Level 2 Grid called "The Coral Reef".

14.4.2.B.2. Principle of the Game :

The Grid includes Items that all hide a win. The Player may attempt a Double or Quits on any winnings in this Grid including Bonus Game Access, up to a maximum of 4 consecutive Double or Quits. Any Double or Quits, i.e. any click to attempt a Double or Quits, decrements its Double or Quits Bonus counter, accumulated via the Wheel.

14.4.2.B.3. "The Coral Reef Gains":

- The Gains in this Grid can be:
- Prize Boxes,
- Bonus Game Access Cases.

14.4.2.B.4. Renewal of the Grid :

The Grid is renewed when the Loot of the current Grid, namely the discovery of all Shark Will's Game Access or Treasure, is discovered.

14.4.2.C Bonus Games :

14.4.2.C.1. Shark Will's Treasure :

14.4.2.C.1.1. Players play together on this Bonus Game.

14.4.2.C.1.2. The Goal of this Bonus Game is to bet your Gold Coins on the Game Chests.

14.4.2.C.1.3. The game is played as follows:

- General Case :

When the Player wins one (1) or more Accesses to Shark Will's Treasure via the Coral Reef Grid, he is awarded one (1) or more Gold Coins.

A set of 8 Chests are presented to the Player.

The Player must choose on which Chest(s) to place, i.e. bet, his Gold Coin(s).

The Player may choose to distribute his Pieces on one or more Chests or place them on a single Chest.

As soon as a set of Six (6) Gold Coins is placed in the Chests, the current game stops. Chests reveal what they contain and winnings are rewarded.

Winnings are awarded to the Player according to the following principle:

Each Player receives the payout revealed by the Chest multiplied by the number of Gold Coins bet in the Chest.

For example :

Player X has bet 4 Gold Coins on Chest #1, which hides \$100.

Player Y has bet 1 Gold Coin on Chest #1, which hides \$100.

Player X will win: $4 \times \$100 = 400$ Dollars

Player Y will win: $1 \times \$100 = 100$ Dollars

- Special Case: Shark Tooth Malus :

If, at the end of a Shark Will Treasure Game, a Shark Tooth Malus has been discovered by one or more Players, all Player Winnings per Chest is reduced to 50% of their original value.

The player(s) who discovered a Shark Tooth Malus also wins the check it contains.

- End of Game :

Once Shark Will's Treasury Game is revealed and completed, a new Game is generated for a new Shark Will Treasury Game.

Double or Quits Bonus Case: When the Player has attempted and won one or more Double or Quits in the "Coral Reef" on a Shark Will Treasure Access, he wins additional Gold Coins.

14.4.2.C.2. The Treasure of Red Beaver Sam :

14.4.2.C.2.1. Players play together on this Bonus Game.

14.4.2.C.2.2. The Goal of the Game is to win Red Beaver Sam's Treasure Loot and all of the Game's Prizes by trying to stay as long as possible Looter of the game.

14.4.2.C.2.3. Winning the Game :

Each Part of the Red Beaver Sam Treasure consists of 50 Diamonds each containing either :

- Points,
- a Prize
- a Loot.
- An Eye Cache

14.4.2.C.2.4. Red Beaver Sam Treasury Access Special Case :

o There can only be one and only one game in progress of the Red Beaver Sam Treasure:

➔ In other words, if a Red Beaver Sam Treasure Game is already in progress, any new Red Beaver Sam Treasure Access discovered in the Coral Reef will automatically be converted into a Consolation Payout.

o There may only be one and only one Red Beaver Sam Treasure Game won in any one Coral Reef Game:

➔ In other words, if a Part of Red Beaver Sam's Treasure has been discovered in Coral Reef #1, any other discovery of Red Beaver Sam's Access to Treasure in Coral Reef #1 will automatically be converted to a Consolation Payout.

14.4.2.C.2.5. The Game Procedure is as follows:

- Discovering Access to the Bonus and First Looter:

When a Player discovers Red Beaver Sam's Treasure Access, a new Game begins. The player who discovered Access to the Bonus Game becomes the First Looter. This First Looter Status allows the Player to make a first Click, that is, a first Looter into Red Beaver Sam's Treasure without being removable. In other words, as long as that Player has not made his First Loot on the current Game, the current Red Beaver Sam Treasure Game is not accessible to any other Player.

The First Looter must make his first Loot within 5 minutes maximum from the time of obtaining his Access to the Treasure of Red Beaver Sam. Beyond this time, he loses his First Looter status and can be dismissed at any time.

To loot Red Beaver Sam's Treasure, the Player must click on one of the fifty (50) Diamonds displayed on the Game Board. His Winnings are then revealed and the Diamond disappears from the Game Board.

- Game sequence after the First Loot :

Once the first Loot has been made, the current Red Beaver Sam Treasure Game is available to all players; in other words, any player can now become himself a Looter of the current Game.

Once the first Looting has been done, the first Looter, now a simple Looter, must wait the time indicated by his Time Counter before being able to do his next Looting in Red Beaver Sam's Treasure.

Once the waiting period is over, the Looter can again make a Loot by clicking on one of the Diamonds in Red Beaver Sam's Treasure. He will then have to wait again before his next looting.

- Time and Decrement Counter :

The Time Counter is presented in the form of a Time Gauge whose each segment indicates to the Player the waiting period between two Loops:

o The Time Gauge is composed of the following Bearings :

Bearing N°1 : 20 Minutes

Bearing N°2 : 15 Minutes

Bearing 3: 8 Minutes

Bearing N°4 : 4 Minutes

Bearing N°5 : 1 Minute

Bearing No. 6 : No Waiting

The Looter Time Counter is constantly displayed under the Ocean Quest Game Logo and on Red Beaver Sam's Treasure Access Page.

The Player may at any time decrement his Time Gauge by reducing his waiting period between two Lootings by discovering a new Loot on The Steering Wheel:

o He must trade his Loot for a Click in the Coral Reef to get this advantage.

o This advantage is acquired in addition to the Click obtained in the Coral Reef.

Each Loot won decrements its Time Gauge from a Bearing and directly influences its Waiting period in progress:

o Here is an Example, illustrating the operation of the Time Gauge :

The Looter is at Landing No. 1. His waiting time between each looting is 20 minutes.

At this moment, his Time Counter displays 14 min and 30 s (so he has waited 5 min and 30 s since his last Loot).

The Looter discovers a Loot; he exchanges his Gain for a Click in the Coral Reef.

His Time Gauge is now at Tier 2, 15 minutes.

The Player's Time Counter is automatically readjusted to 9 minutes and 30 seconds (15 minutes less the 5 minutes and 30 seconds that have already elapsed since the last Loot).

When the Looter's Time Gauge reaches Tier #6, the Looter may loot Red Beaver Sam's Treasure without being limited by a delay between each click.

- Removal of the Looter:

A Player is automatically removed from his Looter status when another Player discovers a Loot on the Wheel of The Steering Wheel:

o The Player must exchange his Loot for a Click in the Coral Reef to remove the current Looter.

o This Looter Status is acquired in addition to the Click obtained in the Coral Reef thanks to the exchange made.

Once removed, the removed Looter may no longer loot the Red Beaver Sam Treasure.

The new Looter in place can immediately Loot the Treasure of Red Beaver Sam.

The new Looter in place will then have to wait the time indicated by his Time Counter before being able to make his next Looting in the Treasure of Red Beaver Sam.

A deposed Looter may nevertheless become again at any time the Looter of the current Game by winning again a Loot on The Steering Wheel Wheel and exchanging it for a Click on the Coral Reef. However, its Time Gauge automatically starts again at Level N°1.

- **End of Game :**

The Red Beaver Sam Treasure Game ends when the maximum Loot or Eye Hide is discovered.

14.4.2.C.2.6. Double or Quits Bonus Cases: It is not possible to attempt a Double or Quits on Red Beaver Sam Treasure Access.

14.4.2.C.2.7. Prizes won by the Player on this Bonus Game will be added to the "Winnings history" section of the Player account immediately after the end of the Game. 14.4.2.C.3. The Treasure of Black Teeth AI :

14.4.2.C.3.1. Players play together on this Bonus Game.

14.4.2.C.3.2. The purpose of this Bonus Game is to win the Game Prizes represented by a 12 Segment Wheel.

14.4.2.C.3.3. The Game Procedure is as follows:

- The wheel has 12 segments in the form of 12 different gemstones.
- Each Segment represents one of the following Gains :
 - Points,
 - Prizes,
 - an AI's Eye Bonus.
- The player rolls two dice. The sum of the dice face values determines the Player's movement on the Black Teeth AI Treasure Wheel.
- The Player is then automatically placed on the Wheel Segment number so determined:
 - If the Player falls on a Segment already discovered by a Player other than himself on the current Black Teeth AI Treasure Game, he wins the corresponding Prize but returns 20% of his Prize to the player who fell first on that Segment during that Game.
 - If the Player comes across a Segment that he has already discovered, he wins the entire corresponding Prize.
 - If the Player comes across a Free Segment:

- If the Segment represents the AI Eye Bonus, the Black Teeth AI Treasure Game is reset. The Player then receives a Consolation Payout.

14.4.2.C.3.4. Double or Quits Bonus Cases: When the Player has attempted and won one or more Double or Quits in the Coral Reef on a Black Teeth AI Treasure Entry, he wins additional dice rolls. Each Game of the Black Teeth AI Treasure consists of one roll of the dice and one move on the Game Board Wheel.

14.4.2.C.3.5. Prizes won by the Player on this Bonus Game will be added to the "Winnings history" section of the Player account immediately after the end of the Game. 14.4.2.C.4.1. The Player who has access to this Bonus Game is the only one to participate.

14.4.2.C.4.2. The Goal of this Bonus Game is to win the maximum number of Prizes in the Game by avoiding the Black Pearl.

14.4.2.C.4.3. The game is played as follows:

- o The Player has a game board, presented in the form of a set of Shells on which the Player must click one after the other.
- o If the Player falls on a White Pearl, the Game stops and he wins all the Prizes revealed behind the Shells discovered during that Game of Jane Rascaille's Treasure, namely those on which he clicked before the discovery of the White Pearl.
- o If the Player comes across a Black Pearl, he does not win any of the Prizes revealed behind the Shells discovered during that Game of Jane Rascaille's Treasure, namely those on which he clicked prior to the discovery of the Black Pearl. The Player then wins a Consolation Prize.
- o If the player discovers a White Pearl the first time he clicks on a Shell from a Jane Rascaille Treasure Game, he wins a Consolation Prize.

14.4.2.C.4.4. Double or Quits Bonus Cases: When the Player has attempted and won one or more Double or Quits in The Coral Reef on Jane Rascaille's Access to Treasure, he wins additional games. Each Part of Jane Rascaille's Treasure consists of a new game board.

14.4.2.C.4.5. Prizes will be added to the "Track Winnings" section of the Player account immediately after the end of the game. They will reach the Player under the conditions and within the time limits described in the general rules of the site from which he has just played.

14.4.2.C.5.3. Ties in value are not considered valid and therefore do not respect the strictly increasing value rule of the Game.

14.5. Bee Lucky

14.5.1. Description

14.5.1.A The grids of the game "Bee Lucky" are accessible on the Internet page " Bee Lucky " under the heading "Loot Games". All Members play on the same Hive Grid.

14.5.1.B The Member must have Game Pass to participate in Bee Lucky.

14.5.1.C The aim of the Game is to discover in the Hive the most powerful VIP Pass to access the associated VIP Room.

14.5.1.D The " Bee Lucky " web page displays :

- The current grid of the game Bee Lucky;
- The cost of participating in the Bee Lucky game in progress;
- The visual of the prizes put into play;
- The boxes already opened on the current Grid and their contents;
- Prizes already won;
- Information about the game.

14.5.1.E By clicking on a box on the " Bee Lucky " Game Grid, the Member agrees to have his Member Account debited for the cost of participation corresponding to said Grid and to participate in it under the conditions set out in these Rules.

14.5.1.F The nature of the prizes and the cost of participation may vary from one party to another without prior notice, without giving the right to any compensation.

14.5.2. Rules and Explanations :

14.5.2.A The Member accesses the Grid using Pass.

14.5.2.B Each Game shall consist of:

- The Hive Cases where Points, VIP Pass, Booster Rounds or Bonuses are hidden.
- The VIP Rooms which correspond in a Grid containing several Prizes (and Points for the Room Marguerite). VIP Rooms values are the following ascending order : VIP Room Marguerite, Thistle, Tulip, Orchid, Rose.

DUNS Number : 397565925

14.5.2.C The Game starts when a Member clicks on a square on the Hive Grid. Each VIP Pass allows the Member to access his VIP Room to make a Click and win a prize. The Hive is renewed when all the Rose VIP Pass have been discovered.

14.5.2.D The stronger the VIP Pass discovered by the Member, the higher the VIP Room's gains.
A Double or Quits is then offered to the Member on the Prize discovered: either he accepts it or he cashes the prize he has won. He may attempt up to 3 Double or Quits in a row.
The VIP Rooms opened by the Member through his VIP Pass are unique and are opened only once. An exception to this rule exists thanks to the Come Back Bonus which allows the Member to "resurrect" his "Best VIP Room" discovered so far. Best VIP Room" means the one containing the best prize yet to be won.

14.5.2.E The first Member to discover a Rose VIP Pass becomes the King or the Queen of the Hive.
Each time a Member discovers a VIP Pass and clicks in the VIP Room associated with that VIP Pass, the King or the Queen earns a Points Bonus equivalent to 10% of the Points value of the prize earned and redeemed by the Member.

This advantage is also valid for VIP Passs validated by the King or the Queen himself. The King or the Queen therefore wins 10% of the Points value of each VIP Pass validated as long as he is King or the Queen.

However, a future King or Queen does not receive 10% of the VIP Pass that allowed him to become King or the Queen and the current King or the Queen does not receive 10% of the VIP Pass that served to overthrow him.

The value in Points of the Prize earned corresponds to that actually earned by the Member in the VIP Room, including Double or Quits.

14.5.2.F The King or the Queen of the Hive retains his place on the Grid except in the following cases:

- when another Member discovers a Rose VIP Pass:
 - If the King or the Queen is protected by Physios, the Member who discovered the Rose VIP Pass eliminates one of the Physios at random.
 - If the King or the Queen no longer has Physios, that Member takes his place.Only one exception to this rule: if the Member discovers a Rose VIP Pass as a Physio, then he takes the place of the King or the Queen and all former Physios are eliminated.

- when another Member discovers an Scandal Bonus:
 - If a King or the Queen is protected by Physios, the Member who discovered the Scandal Bonus eliminates one of the Physios at random.
 - if the King or the Queen no longer has Physios, the Member who discovered this Bonus takes his place.

- when another Member discovers a Change of Owner Bonus :
The King or the Queen and his Physios are overthrown. Then there are no King or the Queen or Physios. The Member does not take the place of the King or the Queen.

14.1.2.G Grid Bonuses are (not all Bonuses are necessarily present in all Grids):

- **Happy Hour:** The Member may attempt his last Missed Double or Quits again. He may only use this Bonus once per Double or Quits series.
- **Hive :** This Bonus gives the Member an indication in the form of an area on the Hive in which a Rose VIP Pass is hidden.
- **Star :** The Member must win his next Quits or Doubles. He may only use this Bonus once per Double or Quits series. It can only be used on the Game Grid and not on the VIP Rooms.
- **Cup :** The Member must discover this Bonus twice on the same Hive in order to reconstitute the Gold Mask and win 10,000 Points.
- **Come Back:** This bonus "resurrects" the best VIP Room that the Member has accessed (and not won the best prize). He can then click again and win another prize. He thus sees thanks to this Bonus his or his last clicks in the resurrected VIP Room.
- **Physio of the King or the Queen:** The Member becomes Physio of the King or the Queen.
If there is no King or the Queen, if he is the King or the Queen or if he is already Physio, then the Member earns Points in compensation.
As a Physio, he is rewarded when another Member knocks him down with the Scandal Bonus or by discovering a Rose VIP Pass.
Two exceptions to this rule: the Change of Owner Bonus or the discovery of a Rose VIP Pass by a Guard.
- **Scandal :** The Member may overthrow a King or the Queen's Guard at random or the King or the Queen himself if he has no Guard. He may refuse to use his Eclipse Bonus. If there is no Guard or King or the Queen, then he becomes King or the Queen.
- **Owner Change :** The Member may overthrow the King or the Queen, regardless of his number of Physios. Then there is no more King or the Queen. He may refuse to use his New Era Bonus.
- **Party Pooper:** The discovery of this Bonus mixes all the undiscovered squares of the Hive.

14.1.2.H The details of the winnings can be viewed from the "Hive Cases" link on the "Bee Lucky" game page.

- The Member's Vegetable Garden ;
- The boxes already opened on the current grid and their contents;
- The last validated Vegetable Garden ;
- Information about the game.

14.6.1.E By clicking on a box in the Game Grid "The Carrott' & Kid", the Member agrees to have his Member account debited for the cost of participation corresponding to the said grid and to participate in it under the conditions set out in these Rules.

14.6.1.F The nature of the prizes and the cost of participation may vary from one party to the other without prior notice, without giving the right to any compensation.

14.1.3. Rules and Explanations

14.1.3.A The Member must have Pass to access the current Grid.

14.1.3.B Each box on the Grid contains either :

- Points,
- Carrots,
- Bonuses,
- Prizes.

14.1.3.C The Game starts when a Member clicks on a square on the current Grid. Each Member has an Vegetable Garden which allows him to collect prizes and Carrots which, if associated with the corresponding prizes, will allow him to validate his Vegetable Garden and to win all the prizes contained inside.
The Temple Gate is renewed when all the Fire Carrots have been discovered.

14.1.3.D An Vegetable Garden contains 10 slots that can be increased with the Collect Bonus.

14.1.3.E To validate his Vegetable Garden, the Member must possess a Carrot at least as powerful as his most powerful prize.
The Carrots are of increasing power: Raw Carrot, Cooked Carrot, Silver Carrot and Golden Carrot.

14.1.3.F The Member may empty the content of his Vegetable Garden at any time if it does not satisfy him. He will then receive compensation in Points whose amount depends on the content of his Vegetable Garden on one hand, and on the other hand on the value of the prizes it contained.

14.1.3.G The first Member who validates an Vegetable Garden with a Golden Carrot becomes the Garden Master.

He then benefits from the following advantages:

- **Earnings from other Members:** Each time a valid Member redeems an Vegetable Garden, , the Garden Master earns a Points bonus equal to 10% of the value of the winnings contained in the validated Vegetable Garden.
This advantage is also valid for Vegetable Garden validated by the Master himself.
The Master therefore wins 10% of the Points value of each Vegetable Garden validated as long as he is Master.

However, a future Master does not touch 10% of the Vegetable Garden who allowed him to become Master and the Master in place does not touch 10% of the Vegetable Garden who served to overthrow him.

- **Master Prize Bonus:** When another Member or the Master himself discovers this Bonus, the Temple Master wins clicks in the Temple.
- **Master's Choice Bonus:** when the Master discovers this Bonus, he can inject the Bonus of his choice into the current Grid.

14.1.3.H The Garden Master retains his place on the Grid except in the following cases:

- when another Member validates a Golden Carrot:
 - If the Master is protected by Guards, the Member eliminates one of the Guards at random.
 - If the Master no longer has Guards to protect him, the Member replaces the Master. Only one exception to this rule: if the Member has validated a Golden Carrot as a Guard, he takes the place of the Master and all the former Guards are killed.
- when another Member discovers the Conspiracy Bonus:
 - If the Master is protected by Guards, the Member eliminates one of the Guards at random.
 - If the Master no longer has Guards to protect him, the Member who discovered this Bonus replaces the Master.
- when another Member discovers the Destitution Bonus
The Master and his Guards are overthrown. Then there is no Master or Guards.

14.1.3.I When Members find the Master's Guard Bonus, they become the Garden Master's Guards. Each time a Member attempts a Conspiracy or validates a Golden Carrot, he overthrows a guard, and so on until the Garden Master has no more Guards to protect him.

14.1.3.J The Carrott'&Kid Grid Bonuses are as follows:

- **Seed :** A place is added in the Member's current vegetable garden.
- **Mole :** The Member can delete an element at the choice of his Vegetable Garden.
- **Double or Quits:** this Bonus allows the Member to attempt one or more Double or Quits on the Elemental of his choice. When he has several Quits or Doubles, he can use them on a single Vegetable Garden (with a maximum of 3 Quits or Doubles on the same Vegetable Garden), or spread them over several Vegetable Garden . Bonus winnings are credited to the Member's account with their Points value.
- **Prize to Master:** The Member makes the Master in place win clicks in the Grid and he wins Points. If the Member is the Master, then he offers himself clicks.
- **Master's Favor:** If the Member finds a prize during his next 3 clicks, this one does not go in his Vegetable Garden but wins it directly.
- **Master's Guard :** The Member becomes a Guard of the Master. If there is no Master or if the Member is the Master or if he is already Guard, then he earns Points in compensation. As a Guard, he is rewarded when another Member knocks him down with the Conspiracy Bonus or the validation of a Golden Carrot.

There are two exceptions to this rule: Destitution or validation of a Golden Carrot by a Guard.

- **Conspiracy:** The Member may overthrow a Master's Guard at random or the Master himself even if he has no Guard. He may refuse to use his Conspiracy Bonus. If there is no Guard or Master, he becomes Master of the Garden.
- **Gold Carrot Secret Gallery :** This Bonus indicates to the Member an area containing a Golden Carrot.
- **Silver Carrot Secret Gallery:** This Bonus indicates to the Member an area containing a Silver Carrot.
- **Master Selection:** If this Bonus is discovered by the Master, he can add the Bonus of his choice in an unopened box of the current Grid. If the Member is not the Master, he earns Points in compensation.
- **Dismissal :** This Bonus, if he agrees to use it, allows the Member to overthrow the Master, regardless of his number of Guards. Then there is no Master.
- **Master's Breath:** The discovery of this Bonus mixes all the undiscovered squares of the current Grid.

14.1.3.K Not all bonuses are necessarily present in all grids

14.1.3.L Details of winnings can be viewed by clicking on the "Temple Boxes" link on the "Carrott' & Kid" page.

- A "Loot" box,
- Points boxes,
- Bonus boxes.

14.7.2.B The Game starts when the Member clicks on a square on the current Grid. The discovery of a "Loot" box by a Member will result in the end of the Grid and the beginning of a new Grid in the following minutes.

The list of Loots to be won on the Grid can be consulted by clicking on "List of Loots".

14.7.2.C Loot is a Currency Value Prize or Points value drawn from a series of several Loots. Members have access to the list of winnings remaining to be won on the current round by clicking on "Loot List".

- In order to fight against fraudulent use of the Member Account, a Code is generated at each request. This Code is communicated to the Member when he validates his online request.
- Finally, in order to avoid automated form submissions by computer robots, the Member is asked to complete his online request by typing on his keyboard a series of characters, called "Captcha Code", which is presented to him on the screen. Once this step is completed, the application for Game Pass is registered.
- Following the registration of his online application, the Member receives at home a postal mail containing a form to be completed and signed in order to validate his application as well as a "Return" envelope allowing him to return this form to the organizing company at no cost. It is on this form that the Member must enter the Code that was communicated to him when he made his request online.
- The Member has a maximum of 15 days after the date of his online request to return his form. During this time, the application is considered "in process" and no further application can be made. If the Member does not respect the 15 days deadline to return his request, it is then cancelled. The Member can then make a new request online.
- Any form that is not returned signed and complete will result in the cancellation of the Game Pass application. - The organising company cannot be held responsible in the event of a problem with the delivery of mail by the postal services (delay, loss of mail, etc.).

17.1. General Principle

- 17.1.1. By participating in the Games organized on the ZooValley site, the Member accumulates Points, Currency values or Prizes.
Each Member then has 2 counters: a virtual Points counter and a Cash pot of the currency of this country.
- 17.1.2. Once the Member has earned Points, they will immediately be credited to their Member Account.
When he wins currency values, these will be immediately credited in his Cash pot.
- 17.1.3. Depending on the number of Points available, Members may convert their Points into prizes or services, which are offered in the "Prizes" section of the ZooValley website.
- 17.1.4. The content of the "Prizes" section is subject to change without notice by the organizing company, without this being the subject of any claim on the part of Members.
Points will be exchanged for prizes or services according to the cost in Points set by the organizing company.
This cost is subject to change without notice or justification, without this being subject to any claim on the part of Members.
- 17.1.5. The Points cost of a prize indicated in the Prize Shops is debited from the Member's Points balance at the time the Member places the order. The cost in Points paid for the order of a prize in store corresponds to the cost displayed at the moment when the Member clicks on the "Validate" box displayed on his screen.
- 17.1.6. The organising company draws the Members' attention to the fact that all games played or prize acquisitions will automatically be considered null and void as soon as one or more elements of the Game or on the site appear to be a prize or a cost that is disproportionate to the normal operation of the Game and the normal costs of the Prize Shops - any winnings from this prize will therefore also be cancelled. No claim will be accepted on this account.
- 17.1.7. The descriptions of the prizes can be consulted at any time in the "Prizes" section. However, the illustrations and descriptions of the Prizes are intended to illustrate the shops and have no contractual value.

18. Shipping of Winnings

18.1. General Principle

18.1.1. Prizes acquired by redeeming Points in the "Prize Shops" section or by any other method of winning will be shipped within a maximum of 8 weeks from the date of validation of the win.

18.1.2. The prizes won will be delivered to the postal address indicated by the Member in the personal information form that can be consulted and modified in the "Account" section of the ZooValley website.

18.1.3. Prizes sent by post or by carrier travel at the risk and peril of the recipient. DreamCentury Entertainment cannot be held responsible in the event of loss or deterioration of the Prizes sent. DreamCentury Entertainment shall not be held liable for any delay in the shipment of prizes when such delay is not attributable to DreamCentury Entertainment, but is the fault of the service provider to whom DreamCentury Entertainment uses to carry out the shipment. It shall not incur any contractual or legal liability in respect of operations relating to the transport of the prizes awarded.

18.1.4. DreamCentury Entertainment reserves the right to cancel any unclaimed winnings after 1 year from the effective win date on the site. An unclaimed win is defined as :

- a prize sent by the organizing company but returned by the postal services for "default of address", "person not living at the address indicated" or "not claimed" or any other proof by the postal services indicating a mismatch between the postal address indicated on ZooValley and the identity of the Member.
- a prize awaiting a postal address entry by the Member so that the organising company can send the prize.
- a prize pending bank details (IBAN, Routing Number, Account Number, Paypal Account) so that the organising company can transfer the prize.
- a gain awaiting action by the Member so that the organising company can transfer the prize.

18.1.5. DreamCentury Entertainment is not a producer, manufacturer, supplier, vendor or distributor of prizes and therefore cannot be held liable for any of these. Prizes won by ZooValley Site Members are delivered to them without guarantee. Consequently, malfunctions, breakdowns or other defects will not be taken care of by DreamCentury Entertainment and will remain the responsibility of the Member.
